

Online Loan Request Guide

This guide will walk you through the process for requesting a loan online from your retirement account. You may consider consulting a tax or financial planning professional before borrowing money from your retirement account. So let's get started!

When considering whether to take a loan from your retirement account, you may "model" different scenarios to determine the amount you can borrow and the anticipated repayment amount. This can be done using the retirement plan website, or by calling Pension Inc. at 1.920.432.7020.

Please note that a loan request for the purchase of a principal residence will require supporting documentation, such as a copy of your purchase agreement or mortgage agreement dated within 90 days of your loan request. The supporting documentation must be uploaded as part of the online loan request.

 Select a Loan Type and choose between General Purpose Loan or Residential Loan.
